**FOR IMMEDIATE RELEASE**

**Nirmol Bangladesh Advances Marine Science and Technology  
Expertise through ISA-China Training Workshop**

**Dhaka, Bangladesh — November 8, 2023**

Nirmol Welfare Foundation of Bangladesh (Nirmol Bangladesh) proudly announces its active participation in a prestigious training workshop organized by the "ISA-China Joint Training and Research Center." This illuminating training program, centered around "Marine Science and Technology," took place from October 16 to 27, 2023, in the vibrant coastal city of Qingdao, West Coast New Area, People's Republic of China.

The workshop, a collaborative endeavor between the International Seabed Authority (ISA) and the China Joint Training and Research Centre (JTRC), was meticulously designed to foster capacity building, knowledge transfer, and technological prowess among emerging scientists hailing from diverse disciplines and nationalities. Participants from an array of nations including Bangladesh, Sri Lanka, Indonesia, Morocco, Fiji, Peru, Argentina, Benin, Brazil, Ghana, Mexico, Mozambique, Nigeria, Pope New Guinea, Sierra Leone, South Africa, Tanzania, Togo, Tunisia, and China convened under the guidance of their respective institutions.

Representing Nirmol Bangladesh with utmost dedication and commitment was Md. Alamgir Hossain, the esteemed Executive Director and Founding President.

The intensive training curriculum encompassed a comprehensive range of theoretical lectures that delved into seabed-related topics of utmost significance. These included mineral resources, environmental conservation, biodiversity, seabed habitats, and the cutting-edge technologies and equipment deployed in these fields. The participants were also provided invaluable hands-on experience, operating underwater vehicles and simulators. Additionally, they undertook enlightening visits to esteemed ocean-related institutions located in Qingdao, China, and even embarked on offshore operations aboard a specialized research vessel.

Date: 8<sup>th</sup> November 2023

This enriching workshop provided an unparalleled platform for meaningful discussions and knowledge exchange among participating institutions and organizers. The insights gained from these exchanges hold the potential to shape future geological research strategies. This, in turn, will augment the capabilities of our dedicated professionals, empowering them to embrace state-of-the-art techniques. Ultimately, these advancements will ensure the delivery of reliable, up-to-date information for the betterment of our society and, by extension, our nation.

Nirmol Bangladesh takes great pride in its participation in this transformative training workshop and remains steadfast in its commitment to advancing marine science and technology for the greater good.
